*** Denotes Top 8 Qualifier (whether the driver competed in the finals or not based on their best qualifying E/T during the TnT/Grudge Racing session)**

NOTE: If the E/T number is "red", the competitor broke out of their competition class and should have been moved to the next higher level competition class or disqualified. Unfortunately, due to human error when seeding the brackets, a couple drivers were allowed to compete in the final 8 who should have been moved up to the next class. No driver's who ran faster than the class breakout ended up winning their class.
